

The 12 Metre Class

(2nd Edition)

By Luigi Lang, Dyer Jones
and Jan Slee

The history of the International Twelve Metre Class
from the First International Rule to the America's Cup

The 12 Metre Class played a tremendously significant role in the development of yachting in the 20th Century. Large graceful yachts, with good racing speed and manned by large numbers of crew, they were designed by some of the world's greats – William Fife, Charles Nicholson, Olin J. Stephens, Alfred Mylne, Johan Anker: it was inevitable that they would make their mark in history. And here, at last is the long awaited second edition of the definitive book about this spectacular class.

“My Life”

by Edward du Moulin

(edited by his son Rich du Moulin)

About the Author

Edward du Moulin's book is a remarkable presentation by a remarkable man. Written with utter candor and objectivity, this tale includes charming youthful incidents; four year of World War II military service; half a century on Wall Street; and 80 years of sailing, including management activity in seven America's Cup campaigns.....

My best memory of Ed du Moulin is the smile on his face when, in his 87th year, he steered my yacht *Rugosa* in a race around the Isle of Wight in England. We won, thanks very much to Ed's skill! Ed & Eleanor were always winners. This book shows the reader why that is so, while providing vicarious pleasure through appreciation of a lengthy life of impeccable service
